Professional Summary

Frontend UI Developer with 5+ years of experience building **responsive**, accessible and production-ready web applications using **React, Angular and TypeScript**. Experienced in translating **Figma** designs into **reusable UI components**, **integrating REST APIs**, **implementing responsive** interfaces and collaborating with UX/UI teams.

Technical Skills

Frameworks: Angular, Angular Material, React.js, React Native, Expo

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, MaterialUI

Frontend/UI: Responsive UI, Mobile App UI, Material Design, Bootstrap 5, jQuery (legacy / augmentation)

APIs & Integrations: REST APIs, API consumption, client-side validation

Tools: Git/GitLab, Browser DevTools, Microsoft Azure, Postman, Visual Studio Code npm / Yarn

Gen AI Tools: Build **AI interfaces** ChatGPT OpenAI, GitHub Copilot, Cursor AI

Focus Areas: component-based architecture, UX implementation, cross-platform mobile UI, SEO, performance optimization, accessibility

Professional Experience

Avaal Technologies Pvt. Ltd. (Frontend Developer) — Gurugram, Haryana

Jun 2026 – Sep 2026

- Developed and maintained frontend features using **React** and **React Native**, leveraging a component-based architecture to build scalable, reusable, and consistent user interfaces.
- Collaborated with UX/UI developers to implement pixel-perfect, responsive designs while ensuring design consistency across multiple devices and screen sizes.
- Improved frontend rendering performance by 25% by reducing unnecessary DOM operations and optimizing component rendering.

Fluper Ltd. (Frontend Developer) — Noida, Uttar Pradesh

Jun 2024 – Nov 2025

- Developed and maintained **Angular** frontend features using **component-based architecture** to deliver consistent, scalable UI.
- Collaborated with **UX/UI** to implement **pixel-perfect** designs and ensure design fidelity across responsive breakpoints.
- Improved **page performance** by optimizing UI rendering, reducing unnecessary DOM work, and refining frontend behavior.
- Integrated **REST APIs** into Angular screens and enhanced usability with client-side validation and error handling.
- Followed frontend engineering best practices for code quality, naming conventions, and maintainability.

- Leveraged **ChatGPT** and **GitHub Copilot** to accelerate development, generate boilerplate code, debug UI issues, and improve overall development efficiency.

Superb Enterprises Pvt. Ltd. (Web Designer) — Delhi

Oct 2022 – May 2024

- Designed and built responsive ecommerce-facing UI using **HTML5, CSS3/SCSS, Bootstrap 5, and jQuery** for interactive behaviors.
- Converted design assets into working interfaces with a focus on **clean markup**, reusable UI patterns, and cross-browser compatibility.
- Enhanced user experience by improving layout, typography, and UI consistency across multiple web pages.
- Maintained code quality across concurrent projects by documenting changes and applying consistent frontend standards.

Brain Technosys Pvt. Ltd. (Web Developer) — Noida

Mar 2021 – Sep 2022

- Developed frontend components with **HTML, CSS, and JavaScript**, aligning UI with product requirements and UX guidelines.
- Worked closely with backend developers to integrate **API endpoints** and ensure smooth data flow into UI.
- Ensured responsive behavior and cross-browser functionality through testing and iterative UI fixes.
- Assisted with UI troubleshooting and defect resolution to improve release readiness.

Key Achievements

- **15+ Responsive Web Applications.**
- **React & Angular UI Development.**
- **Rest API Integration**
- **Reusable Component Architecture.**
- **Responsive & Accessible UI**

Education

Bachelor of Commerce (B.Com) — MMH College, India
2009 – 2012
